

## ELCO - anti-slide mats

*Knobbled or grooved, that is the question!*

*Design*

*Development*

*Quality*

### ***A matter of choice...***

The two surface structures knobbled and grooved, offer something for every taste. The anti-slide qualities are the same.

### ***Rock 'n Roll***

ELCO-anti-slide mats come on rolls of 500, 600, 900 und 1500mm widths. This ensures they can be easily made to fit.

### ***Typical ELCO***

The usual high quality, optimal anti-slide properties, design diversity and the supply on rolls, make ELCO anti-slide mats a further ELCO top-quality product.
